

HEAVY DUTY LUBRICANTS

Economical, dependable lubrication

T0-4 TRANSMISSION OIL**PRODUCT DESCRIPTION**

SURE-CRAFT™ T0-4 Transmission Oil (single grades) have been formulated for Caterpillar Transmissions and meet the T0-4 specification. They provide excellent compatibility with components and frictional materials, some of which are no longer compatible with engine oils. **SURE-CRAFT™** T0-4 oils provide excellent frictional characteristics to maximize equipment performance.

FEATURES

- Do not contain aggressive nitrogen products to ensure maximum clutch life
- Excellent frictional characteristics for power transfer with minimum clutch slip
- Enhanced anti-wear protection for gears
- Allison C-4 approved
- Accepted for use in Dana and Eaton-Fuller transmissions

TYPICAL PROPERTIES

Sae Grade	10W	30	50
Pour Point	-33	-30	-21
Viscosity Index	108	97	95
Viscosity cSt @ 100C	6.2	11.7	19.3
Viscosity cSt @ 40C	38	108	229
