

HEAVY DUTY LUBRICANTS

Economical, dependable lubrication

TRACTOR FLUID

PRODUCT DESCRIPTION

SURE-CRAFT™ Tractor Fluid is recommended for hydraulic, transmission and wet brake applications. It is particularly suitable for systems which combine hydraulic and transmission oil in a common system. This fluid is also recommended as a rear axle lubricant for Cat Loader Backhoes*

FEATURES

Specifically recommended for tractor specifications:

- John Deere J20C
- Massey Ferguson M1135, M1141
- Case International MS-1207
- Ford new Holland ESN-M2C134-D

Meets Allison C-4

Meets API GL-4

TYPICAL PROPERTIES

Pour Points	-39C
Viscosity Index	150
Viscosity cSt @ 100C	9.5
Viscosity cSt @ 40C	52.5

***NOTE:** The friction modifier PN251403 must be added to the tractor fluid at a ratio of 1 litre to 19 litres for this application. Failure to add friction modifier could result in brake chatter.
